This is a sample document testing nested link text. The \texttt{glossaries-extra} package temporarily modifies commands like \texttt{\gls} or \texttt{\glsxtrshort} that occur in fields, when any of those field is accessed through linking commands.

First use: \texttt{SSI enabled HTML (SHTML)}. 
Next use: SHTML.
Glossary

**HTML** hypertext markup language 1, 3

**SHTML** server side includes (SSI) enabled hypertext markup language (HTML) 1, 2

**SSI** server side includes 1, 3
