

dotted line: rounding error assuming max. rel. err. $< 2.0e-14$

dotted line: rounding error assuming max. rel. err. $< 2.0e-14$

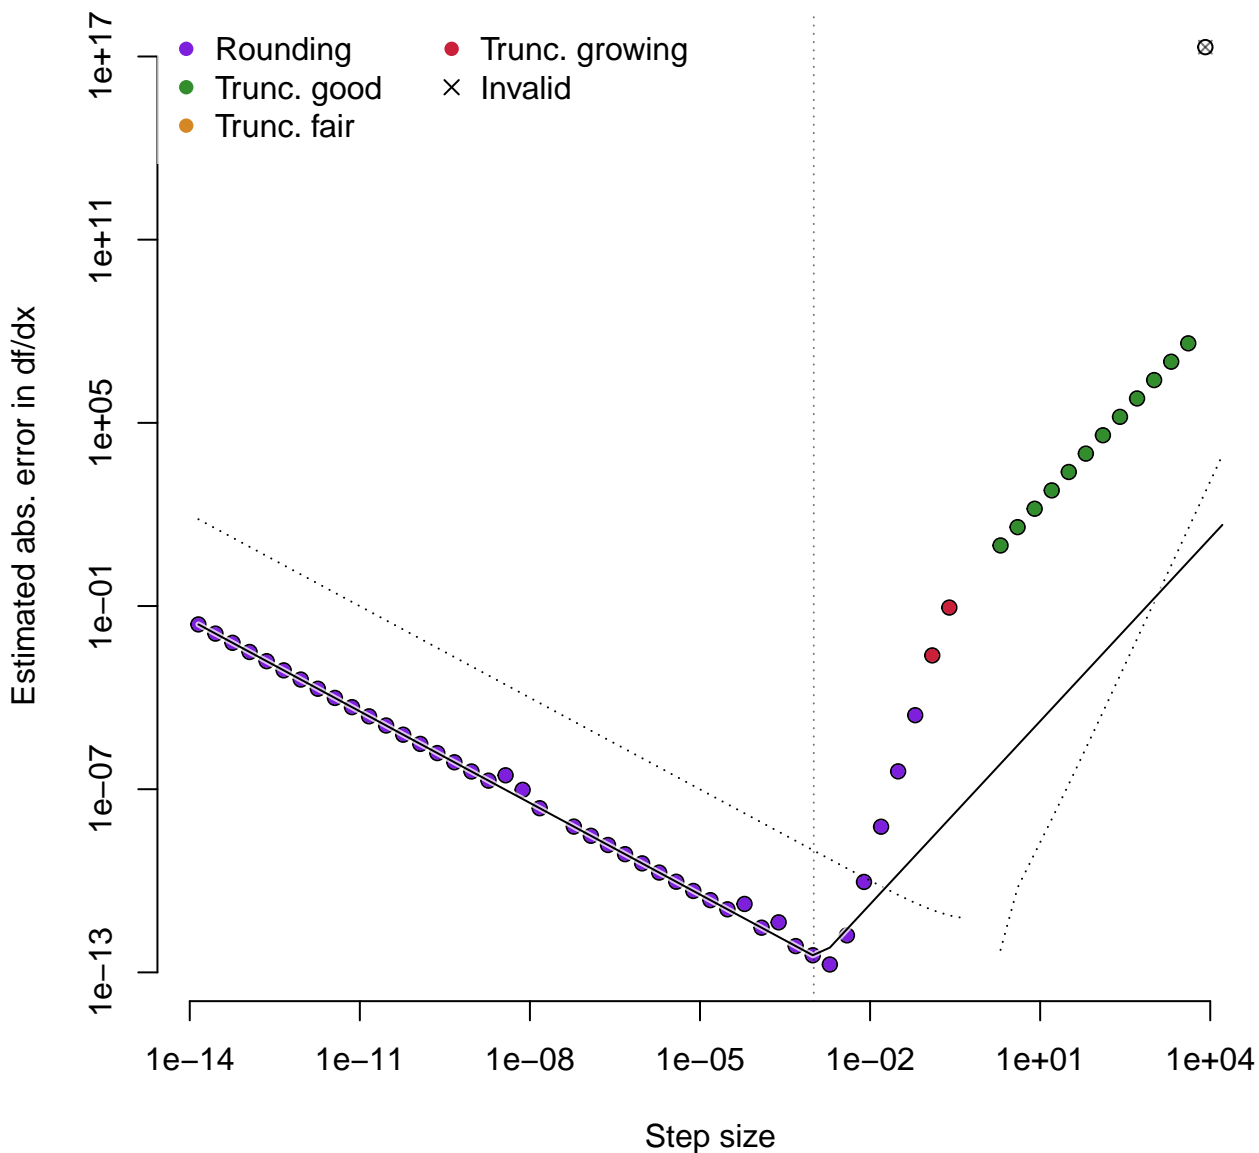

Estimated error vs. finite-difference step size

dotted line: rounding error assuming max. rel. err. < 2.0e-14

Estimated error vs. finite-difference step size

dotted line: rounding error assuming max. rel. err. < 2.0e-14

Estimated error vs. finite-difference step size

dotted line: rounding error assuming max. rel. err. < 2.0e-14
